“ Re imagine your bathroom with our curated collection of exquisitely coloured furniture. From serene teal to classic white, each piece is meticulously crafted to elevate your space. Designed for versatility, our diverse size options ensure a perfect fit, regardless of your bathroom’s dimensions. Additionally, flawlessly matching basins create a cohesive aesthetic, elevating both form and function. Unleash your creativity and discover endless possibilities for a truly personalised sanctuary. ”

Helena - Gloss White

“ A classic, gloss white furniture range that will suit any bathroom or ensuite. Choose your look with modern or classic basin options. ”

Baths

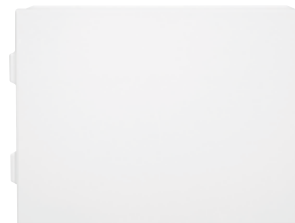

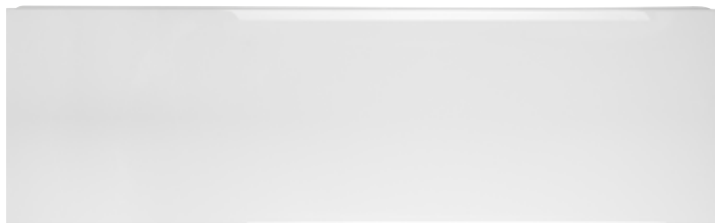

“ Immerse yourself in a world of bathing bliss. Discover our captivating collection of baths, designed to transform your bathroom into a haven of relaxation and rejuvenation. Whether you crave the modern elegance of a freestanding silhouette or the space-saving practicality of a standard acrylic bath, we have the perfect solution for your needs.

Dive into the luxurious embrace of a double-ended bath, perfect for intimate soaks, or unwind in the comfort of a single-ended design. For ultimate versatility, explore our unique shaped shower baths, combining the convenience of a shower with the indulgence of a bath. ”

Evolve - Shower Bath

Allowing for more space in your bathroom, this alternative 1700x750mm shower bath with its rectangular design is guaranteed to take up 100mm less space compared to the traditional L and P shaped shower baths. However, also boasts only 60mm less internal showering space.

The Evolve can be installed with a standard shower screen and front panels, and therefore doesn't require a shaped screen or dedicated panel.

In 1759, the original Carron Company formed the now-famous ironworks on the banks of the River Carron. The company rode the wave of the Industrial Revolution and was famed for their short-barrelled naval cannons, Carronades, used by the Royal Navy up until the 1850s. Since then, we have been at the forefront of modern bath design and as techniques change and new processes emerge, Carron Bathrooms can still be relied on to produce baths with skill and precision, never losing sight of what makes our baths great, craftsmanship.

All our baths go through an eight-stage process before leaving the factory floor. From moulding to packaging, every stage is monitored and finished by hand. This leaves us so confident in our products that we offer a minimum 30-year guarantee on every Carron bath.

Carronite™ was created by Carron Bathrooms to provide a higher level of comfort, luxury and peace of mind for our customers. All Carron Bathrooms baths are hand finished to our exacting standards but only Carronite™ baths, with our unique, patented, triple-layer reinforcement system come with a 40 year guarantee – proof of the confidence we have in Carronite™

Pro - Shower Pumps

Powered By Grundfos

Pump selection in a vented (gravity fed) system.

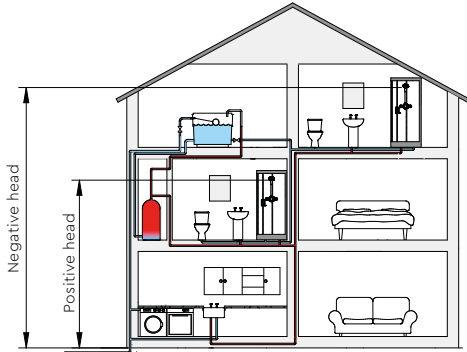

This system uses mains water supply to feed a cold water storage tank, usually located in the roof space, which in turn feeds a hot water cylinder and cold outlets. The system relies on gravity to provide the pressure and flow.

Positive Head Systems

A positive head system exists when sufficient pressure is available under gravity to provide a flow at the outlet. Typically a positive head condition exists where the flow from the outlet is more than 1 litre/min.

Negative Head Systems

A negative head system exists when there is inadequate pressure or head of water under gravity to provide sufficient flow at the outlet. Typically a negative head exists where the flow from the outlet is less than 1 litre/min.

135496

Pro Pumps - shower pumps

Code	Description	Price
135495	Pro 1.5 Bar Twin Impeller Centrifugal Shower Pump	£378.37
135496	Pro 2.0 Bar Twin Impeller Centrifugal Shower Pump	£473.47

Pressure and sizing

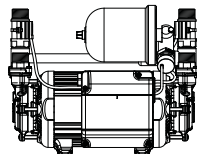

Pumps are rated in bar, which is a measure of the pressure they generate but it helps to know the height of the cold-water cistern above an outlet, as this dictates the static water pressure e.g. 1 bar pressure = 10 metres static head of water.

The following can be used as a guide:

- 1.5 - 2.0 bar pumps for low-pressure taps/showers
- 2.0 - 3.0 bar for high pressure taps/showers.
- 4.0 + options where higher flow rates are required, e.g. full body jet shower

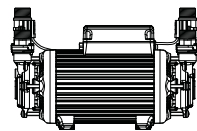

Universal Pumps

Universal pumps are fully automatic, work under both positive and negative head conditions and do not require a gravity flow of water to start the pump. Incorporating both a pressure and flow switch. The pump starts automatically when the pressure switch detects a drop in pressure as an outlet opens.

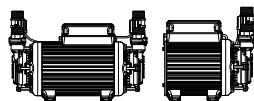

Standard Pumps

Suitable for positive head conditions only and operated by a flow switch, automatically starting when a gravity flow of water greater than 0.6 - 1.0 ltrs/min (depending on the pump model) through the outlet is detected.

Twin and Single pumps

Twin pumps are designed to boost both hot and cold water supplies equally. Single pumps boost single water supplies only; hot, cold or pre-mixed.

What makes a pump 'system friendly'?

In peripheral pumps, water is circulated and gains pressure around the periphery of the pump head. They are considered system friendly as they tolerate hot water temperatures and air within the system to a greater extent than centrifugal pumps.

Shower Fixing Kits

V2 Fast Fix Kit

Vivid Wetrooms - 8mm

We have designed a modular system of panels that can be combined to fit any area. We have broken the range down to 10 key components which you can build together to make up the full wetroom of your choice.

Showerwall with Swivel Panel

Showerwalls

Code	Size	Adjustment	Price
329544	700mm	675 - 690mm	£504.42
329545	800mm	775 - 790mm	£504.42
329546	900mm	875 - 890mm	£504.42
329547	1000mm	975 - 990mm	£547.77
329548	1100mm	1075 - 1090mm	£589.14
329549	1200mm	1175 - 1190mm	£589.14
329550	1400mm	1375 - 1190mm	£687.66
329551	300mm	Cube Panel	£254.18
329552	300mm	Swivel Panel	£296.42
329553	3000mm	Vertical Post	£254.18

- 700, 800, 900mm are the only panels that can be used as end panels
- 700mm + are supplied with stabilizing bars.
- Only 700, 800, 900mm have T-piece connector

MX Anti Slip Shower Trays

The Anti Slip Elements tray lends itself to the latest bathroom trends and achieves all the benefits of a solid cast stone tray. The new Anti-Slip surface is easy to maintain and provides a safer, stable showering experience. Ease of installation is achieved with a contoured underside for leg location.

Features

- 40% lighter than a high wall stone resin tray
- A simple stylish tray which delivers high quality looks and functionality
- MX Anti-Slip material, tested in accordance with British Standard BS7976:3 Pendulum slip test
- The sleek Low Profile design is available in many special shapes and sizes
- Suitable for most types of enclosure
- Complies with BS EN 14527
